

Srishti Raj

Ahmedabad, Gujarat | P: +91 8000905832 | srishti.raj23@st.niituniversity.in | [Leetcode](#) | [Github](#)

Big Data Engineering student with hands-on experience in Python, SQL, backend development, machine learning and AI-assisted applications. Experienced in developing database-driven systems, REST APIs and predictive models.

EDUCATION

B. Tech Computer Science

NIIT University

Relevant Coursework: Data Structures, DBMS, Machine Learning, Artificial Intelligence and Data Engineering

Neemrana, Rajasthan

Sept 2023 - July 2027

INTERNSHIP

AI & Data Science Intern [Certificate](#)

Personify

- Preprocessed trading data and developed predictive models using Python, Pandas and Scikit-learn.

Bangalore (Remote)

April 2024 - June 2024

Machine Learning Engineering Intern [Certificate](#)

Fox Trading

- Trained and compared machine-learning models using feature engineering, performance evaluation and parameter tuning.

Bangalore (Remote)

Oct 2024 - Dec 2024

PROJECT

QueryPulse – AI-Powered SQL IDE [Repository](#)

React • FastAPI • MySQL • SQLGlott

June 2026 – Present

- Building an AI-assisted database workspace designed to translate natural-language requests into SQL and help users explain, debug and execute queries against connected databases.
- Engineered a modular SQL analysis layer using SQLGlott and FastAPI to inspect query structure and flag potentially inefficient patterns and unsafe operations before execution.
- Owned the product roadmap and backend implementation, integrating JWT authentication, saved database connections and searchable query history into a unified workflow.

Customer Churn Prediction System [Repository](#)

Python • Pandas • Scikit-learn • XGBoost • Flask

Jan 2026 – Present

- Built an end-to-end machine-learning pipeline to analyse subscriber behaviour and compare classification models for churn prediction.
- Achieved 91% accuracy using Random Forest during the initial modelling phase

SKILLS

Languages: Python, SQL, Java

Machine Learning & Data Analysis: Pandas, NumPy, Scikit-learn, XGBoost

Data Visualization: Power BI, Microsoft Excel

Databases: MySQL, PostgreSQL

Data Engineering: Apache Spark

Backend & APIs: FastAPI, REST APIs, SQLGlott

Developer Tools: Git, GitHub, Docker, Postman

Generative AI: GenAI Fundamentals, Prompt Engineering, LLM Integration, Ollama

SOFT SKILLS

Skills: Leadership, Team Collaboration, Creativity, Communication, Analytical Thinking, Adaptability, Problem-Solving, Time Management, Attention to Detail, Innovation, Organization, Critical Thinking
